

# Immu-PRIME®

## Bioactives for Newborn Lambs & Kids

### *Blueprint For Success*

Immu-PRIME for lambs and kids is a convenient, easy to use, efficacious bioactive product that is cost effective. Immu-PRIME is an effective appetite stimulator which helps initiate quick and more vigorous sucking. Immu-PRIME should be the first choice for producers who want to give their newborn lambs and kids a successful head start.

Early, high quality colostrum intake is vital for establishing immunity in newborn lambs and kids. Immu-PRIME is the only product you can use before, during or after colostrum feeding to help your newborns survive and thrive. It's easy to feed and can help reduce mortality in struggling, stressed lambs and kids. It's also effective in older lambs and kids too.

### **For newborn lambs & kids:**

Feed one dose 4 consecutive days for best results. The first dose should be fed as soon as possible after birth with or before colostrum.

### **For stressed lambs & kids:**

Recommended for lambs & kids just prior to or during periods of stress.

Stress may include:

- Adverse environmental conditions
- Inadequate or no colostrum feeding

No meat or milk withdrawal period.  
Hold bottle upside down when administering.

2 pumps = 1 dose.  
Available in a 250ml, 50 dose bottle with oral swift doser.

## **TIMING IS EVERYTHING ...**

Immu-PRIME fed before the first colostrum, improves colostrum absorption which increases the maternal antibodies to the newborn lamb or kid. Immu-PRIME also activates cells of the newborn to help eliminate bacteria and increase protection from disease.

Immu-PRIME is also effective in stressed lambs and kids. Immu-PRIME can help balance performance and reduce stress from:

- Difficult birth
- Multiple births
- Inadequate colostrum intake
- Poor housing conditions (wind, mud, drafts)
- Prolonged, inclement weather
- Fecal-oral contact
- Changes in diet or feed routine
- Co-mingling with other animals
- Transportation
